

TADESSE BELAY

Software Developer with experience in React.js, Node.js, and PostgreSQL. Computer Science graduate experienced in end-to-end product development, API integration, and database management. Passionate about engineering clean, maintainable, and user-centered web solutions.

PROJECTS & EXPERIENCE

E-learning System — Full-Stack

JAN 2026

Designed and developed a full-stack e-learning and assessment platform featuring role-based access control, course and quiz management, live class integration, certificate generation, and AI-powered proctoring capabilities. The project was built using modern web and backend technologies, with an emphasis on scalable architecture, modular services, and reliable system integration.

Ethiora — Full-Stack(jun 2026–Present)

Building a full-stack e-commerce application for an online shop, featuring a React-based frontend, FastAPI backend, and SQLAlchemy database integration. The project included user authentication, product browsing, category management, cart and wishlist functionality, and a responsive UI, demonstrating end-to-end web development and modern API design skills.

University of Gondar Data Center — Networking Intern(july 2025–aug 2025)

Configured and maintained core network infrastructure, including routers, switches, and patch panels within the university data center. Monitored network traffic and performance while performing IP address allocations and cabling tasks to maximize uptime. Worked closely with senior engineers to troubleshoot connectivity issues and enforce basic network security protocols across campus networks.

EDUCATION

University of Gondar — Bachelor's degree in Computer science(jan 2022–jun 2026)

During my studies, I have gained a solid understanding of Design & Analysis of Algorithms, Computer Security, Database

SKILLS

- Programming languages
JavaScript, C++, Python, PHP, and Java
- Web development
HTML, CSS, JavaScript, ReactJS, TailwindCSS, Express.js, NestJS, NextJS
- Version Control
Git and github
- Database
MySQL, MongoDB, PostgreSQL

LANGUAGE

English

CERTIFICATION

[Ethiocodeers](#)

- Artificial Intelligence Fundamentals
[View certificate](#)

[Cisco Network Academy](#)

- Introduction to Cybersecurity
[View certificate](#)

[Freecodecamp.org](#)

- Python certificate
[View certificate](#)

*Management Systems, Network & System Administration,
Artificial Intelligence & Machine Learning, and OOP.*
